

Tanner Croddy

Experienced student leader in practical engineering and team communication. I served at TSMC in Fab 21, worked as a sailing vessel Bosun, lead as Vice-President of Future Innovators, while competing and teaching as MUN team Training Director. I donate through my time spent as FIMUN CFO and SGA service. I possess an A.S. in BA and am actively earning a B.S. in ME at FIU. I look forward working for SBM.

EXPERIENCE

TSMC Fab 21 — Chemical-Mechanical Planarization Engineer

June 2026 – August 2026

Set up and managed procedures along the Fab 21 manufacturing line.

Analyzed and optimized processing of initial silicon wafers, created models for processes using precise machining, established more dependable device performance satisfying customer requirements, resulting in higher yield and lower defect rates.

Outlier — Generative AI Engineer: Physics & Engineering

February 2025 – April 2026

Taught physics and engineering principles to AI LLM's. Not Physics like in a PE class, more like dynamics, thermochemistry, and thermodynamics.

SV Dorothy Rose — Bosun

February 2019 – July 2022

Served as an insurance carrier-approved Bosun on a 40 ft sailing catamaran during a 4-year voyage totaling more than 6,000 nm.

FIU Honors College — Professors Assistant

August 2025 – December 2025

Taught alongside Dr. Shu through IDH 3999, a hybrid course that directly contributed back to the Miami community through philanthropic work.

EDUCATION

Florida International University, Miami Florida

August 2024 – Present

Actively earning a B.S. in ME as an Honors student, maintaining an unweighted 4.0 GPA after receiving my A.S. in BA in May of 2024 from SPC.

Actively Held Student Positions, at FIU

Vice-President of Future Innovators by Honors College Engineering.

FIU's Green School, CFO of FIMUN, a 501(c)(3), 800+ attendees.

FIU Model UN Team Training Director, ranked Top #5.

SKILLS

Excellent communication and adaptability, developed extensively in Model UN.

Engineering drafts of parts and assemblies through physical sketches or in CAD systems as a CSWA.

Practical analysis of failures and root cause diagnoses in electronics.

Advanced mathematical prowess and analysis of problems to guide solutions.

Capable leader, learning as a Bosun when to take initiative.

HOBBIES

Bicycling and hiking new trails.

Brewing new coffee concoctions.

Volunteering to make food.

LANGUAGES

Bilingual with native proficiency in English and Spanish.

Offshore Sailing School, Cape Coral, FL (2018)
ASA Bareboat License With Catamaran Endorsement
Certified to 25 tons.
